Executive Director, Federal Regulatory Affairs

EXPARTS OF LATE FILED

March 6, 1998

Ex Parte

Ms. Magalie Roman Salas Secretary Federal Communications Commission 1919 M Street, NW Room 222 Washington, DC 20554 RECEIVED

MAR - 5 1998

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Re: <u>CC Dockets 97-121, 97-137, 97-208</u>, 97-231

Dear Ms. Salas:

During the past few weeks representatives of Bell Atlantic met with representatives of the Common Carrier Bureau to discuss Bell Atlantic-New York's compliance with Sections 271 and 272 of the Telecommunications Act of 1996. These meetings were held pursuant to the Public Notice issued by the Commission on January 27, 1998. At the request of the Policy Division Staff of the Common Carrier Bureau we are submitting, for inclusion in the above referenced proceedings, the attached charts that were used as a basis for discussion during the meetings.

Sincerely,

Enclosures

911 land E911 Emergency Services

Status of Provisioning

- All CLEC resellers and CLECs purchasing BA-NY unbundled local switching automatically get 911/E911 service
- BA-NY has provisioned >300 trunks for CLEC emergency services access
- Switched based CLECs have option for access to E911 database
 - provide own input to database
- 17 CLECs use E911 database

Oilleandlie Oillemergency Services.

- BA-NY provides non-discriminatory access to 911 and E911 Emergency Services
- Available to:
 - · Resellers.
 - CLECs obtaining unbundled local switching
 - Switched based providers
- Available under:
 - Interconnection Agreements.
 - Tariff (effective next week)
- All necessary information is provided to parties requesting access
- Type of Emergency Service System utilized is determined by local municipality

911 and E911 Emergency Services

- Interconnection Trunking:
 - Initial trunk intervals determined by switch turn up
 - Additional trunks on standard intervals
- Trunks are provisioned and maintained in a non-discriminatory manner with all other trunks (e.g. local) for both BA-NY and Interconnectors

911 and E911 Emergency Services

- Access to E911 Database provided in a non-discriminatory manner.
 - Two methods employed depending on manner of local service provisioned by CLEC

A. BA-NY provided switching:

- •Resellers
- *CLECs using BA/NY switching unbundled local switching
- Database
 - Input via service order system
 - •All input (BA and CLECs) is integrated
 - •Necessary operator services information extracted for input to database
 - •Service provider identity removed (all input appears as BA-NY)
 - •All input is batch processed once a day
 - •E911 input matched against Master Street Address Guide
 - •Any errors are corrected in a non-discriminatory manner
 - •Database management personnel have view and edit capability

B. CLEC provided switching:

- •Direct access to E911 database
- Same database information required
- •Batch processing up to 10 times/day
- •Same view and edit capability
- •Service available since early 1996
- •No outstanding issues on the record

Directory: Assistance:

Status of Provisioning

- 8 CLEC using BA-NY's directory assistance services (12/31/97)
- 1 CLEC currently using Directory Assistance Listings Transfer

Directory Assistance Services

- BA-NY provides non-discriminatory access to directory assistance services
- CLECs have two options for providing directory assistance:
 - CLECs may:
 - Purchase directory assistance services directly from BA-NY
 - BA-NY directory assistance operators provide directory assistance services to the CLEC end-user customers
 - CLECs utilizing unbundled local switching may:
 - Establish their own directory assistance service centers and use BA-NY's Directory Listings and/or directory assistance Database

Directory Assistance Services

- For CLECs that purchase directory assistance services directly from BA-NY:
 - BA-NY's directory assistance services are available
 - Under Interconnection Agreements and Tariffs
 - With unbranding/rebranding and with Directory Assistance Call Completion options
 - BA-NY Provides its directory assistance services on a nondiscriminatory basis
 - Branding announcement is generated by BA operator switch
 - CLECs with their own switch or who use BA-NY's unbundled local switching element can interconnect directly with BA-NY's directory assistance switch
 - May use their own or BA-NY's unbundled transport facilities to interconnect to BA-NY directory assistance switch
 - Interconnection trunks are provisioned and maintained in a non-discriminatory manner with all other trunks for both BA-NY and CLECs
 - Standard intervals

Directory Assistance Databases

- CLECs with their own directory assistance centers can obtain non-discriminatory access to BA-NY directory assistance databases
- CLECs can use Direct Access to Directory Assistance for read-only access to BA-NY's Directory Assistance listings
- Direct Access to Directory Assistance provides CLECs with the same capabilities as BA-NY's retail operators
- BA-NY makes the contents of its Directory Assistance database available to CLECs in an electronic format with daily updates

Status of Provisioning

3 CLECs using BA-NY's Operator Call Completion Services (12/31/97)

Operator Call Completion Services

- CLECs have two options for providing Operator and Call Completion Services:
 - CLECs may:
 - A. Purchase operator and call completion services directly from BA-NY
 - BA-NY operators would provide operator and call completion services to the CLEC end-user customers
 - B. Establish their own operator centers and interconnect with BA-NY

Operator Call Completion Services

- For CLECs that purchase operator call completion services directly from BA-NY:
 - BA-NY's operator call completion services are available
 - Under Interconnection Agreements and Tariffs
 - With real-time call rating, Busy Line Verification (BLV), BLV with interrupt and unbranding/rebranding options
 - BA-NY's operator call completion services provides for the nondiscriminatory handling of a CLEC:
 - "0" minus and "0" plus calls
 - "0" plus calls may be used to bill to a third party, collect and calling card
 - BA-NY Provides its operator call completion services on a nondiscriminatory basis
 - Branding announcement is generated by BA-NY's operator services switch platform
 - CLECs with their own switch or who use BA-NY's unbundled local switching element must interconnect directly with BA-NY's operator call completion switch
 - May use their own or BA-NY's unbundled local switching transport facilities to interconnect to BA-NY
 operator call completion switch
 - Interconnection trunks are provisioned and maintained in a non-discriminatory manner with all other trunks for both BA-NY and interconnectors

White Pages Directory Listings for CLEC Customers

- BA-NY provides a basic single line white page listing for every CLEC residential customer that wants to be in the directory
- BY-NY provides a basic Yellow Pages listing for every CLEC business customer
- Additional listings or enhancements are available at tariffed rates
 - These arrangements are identical to those which apply to BA-NY's retail customers
- To ensure the accuracy of proposed directory listings, CLECs receive Listing
 Verification Reports 90 days prior to the close of a specific printed directory
- As of December 1997, BA-NY offers CLECs the ability to view the same complex directory listings information available to BA-NY retail
- BA-NY provides CLECs the ability to place information at the end of the White Pages Customer Guide
- BA-NY delivers directories to CLEC customers in the same manner and in the same time as directories are delivered to BA-NY's Retail customers
- BA-NY provides CLECs with directories at designated locations

Commence of the Commence of th

- Directories are also provided on an incidental basis, upon request by CLECs
- Out of area directories are available at the same price BA-NY charges its Retail customers

Access to Telephone Numbers and Number Administration

- Through 1/19/98, BA-NY as Code Administrator has assigned 526 NXX's to CLECs in NY
- BA-NY, as Code Administrator, provides non-discriminatory access to telephone numbers
- BA-NY provides number administration in a non-discriminatory manner
- BA-NY administers telephone numbers in accordance with the industry guidelines provided in the Central Office Code Assignment Guidelines and the NPA Code Relief Planning Guidelines
- There is no charge for the BA-NY administration function
- BA-NY will continue to provide non-discriminatory access and number administration until the function is transferred to the NANC selected NANPA (4th Qtr. 1998)
- There are no formal complaints pending with BA-NY as Code Administrator

BA-NY Provides Eocal Dialing Panity

- Local dialing parity is provided on a non-discriminatory basis
- Local dialing parity is provided as a result of network interconnection and the assignment of numbering resources
- Local calls from/to CLEC customers and BA-NY customers are handled without dialing extra digits or access codes
- BA-NY voluntarily provides IntraLATA toll presubscription as a result of the NYPSC Performance Regulation Plan (Incentive Regulation Plan)

February 2, 1998

BA-NY provides non-discriminatory access for Interconnection facilities and equipment to the local network for the transmission and routing of local exchange and exchange access traffic

- Available to: Any requesting telecommunications carrier
 - Switched based providers
 - CLECs obtaining unbundled local switching
- Available under:
 - Interconnection Agreements.
 - Tariff
- Available at:
 - Any technically feasible point within the network
 - Quality equal to that provided to BA-NY

Status of Interconnection

- 17 approved Interconnection Agreements
- Provisioned 78,600 trunks in 1997, 121,600 overall
- Approximately 10 times CLEC forecasts; more than double 1996
- Trunk types available include

End office trunks: 49,000 provided in 152 offices

Two way trunks: 3,000 in service

Clear Channel /ISDN Capable

 Traffic volumes have reached over 700 million minutes of use exchanged each month

Provisioning and Maintenance of Interconnection Trunks are provided in a non-discriminatory manner.

A. Provisioning:

- Local Service Request (LSR) for provisioning
- •Engineering Design and Facility verification
- •Engineering Design forwarded to field organizations for installation
- •Completion on Due Date to CLEC/BA-NY with end to end testing
- •If CLEC not ready, mutually changed service completion date
- •Placed in service for traffic carriage

B. Maintenance:

- •Identified equipment or translation issue affecting service delivery
- •Trouble report process initiated via Carrier Account team center and CLEC
- •Contact appropriate CLEC and /or BA-NY Network Operation Center for trouble identification and resolution
- •Network Management Dynamics provided on a non-discriminatory basis
- •Trouble resolution and restoration

Interconnection Trunking:

- Initial trunk intervals coordinated with activation of CLEC switch
- Additional trunks on standard intervals
- Trunks are provisioned and maintained in a nondiscriminatory manner with all other trunks (e.g. local) for both BA-NY and CLECs

Provisioned 78,600 trunks in 1997, 121,600 overall

Trunk Types available include :

End Office Trunks:

49,000 provided to CLECs in 152 offices

Two way Trunks:

3,000 in service

- CLEC on time provisioning at 98%.
- No held orders
- Intervals continue to improve. Capacity increased 150% over forecast. Forecasting process put in place.
- Results skewed by significant number of CLECs not ready.
- Engineering design and verification provided within 10 days.
